Andrew Joseph T. Alegre

Collave Technologies OPC - Managing Director

3F Main Building, BENLOR I.T. Center, 1184 Quezon Avenue, Quezon City, Philippines

andrew.alegre@collave.com

Dear Mr. Andrew Joseph T. Alegre,

As a 4th year BS Computer Engineering student from Far Eastern University – Institute of Technology, I am conveying my interest to apply for an internship position at the Collave Technologies OPC company.

I have a good foundation in Computer Engineering principles and hands-on experience from different projects and coursework. I have enhanced my skills in programming languages such as C++, Java, and Python, as well as in hardware design and implementation. One of the projects I worked on was making a GUI (Graphical User Interface) using Java and have a MySQL Database connected to it as part of my academic requirement. I believe I can contribute positively to your organization and gain valuable experience and enhance both my knowledge and skills that would help me kickstart my career.

I look forward to your favorable response. Attached herein is my CV for your kind perusal.

Respectfully yours,

Elly Roi Dominic F. Francisco
